## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3,6-7, drawn to a crosslinked cationic polymer preparable by the cationic or cationogenic vinyl group-containing monomer N-vinylimidazole of formula I.

Group II, claim(s) 1-2,4,6-7, drawn to drawn to a crosslinked cationic polymer preparable by the cationic or cationogenic vinyl group-containing monomer diallylamine derivative of formula II.

Group III, claim(s) 1-2,5-7, drawn to a crosslinked cationic polymer preparable by the cationic or cationogenic vinyl group-containing monomer of at least one dialkylaminoalkyl(meth)acrylamide and dialkylaminoalkyl(meth)acrylate of formula III.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each cationic or cationogenic vinyl group-containing monomers from Groups I-III are not all encompassed within crosslinked cationic polymers used in cosmetic compositions. This is evidenced by WO 96/37525 (cited by applicants), which describes crosslinked hydrogels of quarternized vinylimidazoles and their use in detergents. 525' does not

Art Unit: 1618

disclose the use of the monomers in groups II-III thus unity of invention for groups I-III is lacking.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
